Sobre mí

Mi nombre es Victor, soy Frontend Developer, tengo +1 de experiencia en el area dev. Me considero una persona amante del conocimiento y con muchas ganas de seguir aprendiendo para adquirir nuevos conocimientos.. Trabajé como freelancer junto a un programador full-stack, utilizando tecnologías como **JavaScript, ReactJs, Next.js, CSS, SASS, Material UI y Bootstrap** en la creacion de varios sitios webs para distintos clientes adaptando las necesidades de los mismos para crear webs sostenibles. Me apasiona crear componentes reutilizables, estructurar el código de manera limpia y ordenada, y seguir las últimas tendencias en desarrollo front-end.

Experiencia Laboral

Freelancer contratado por Full Stack Developer

2023 - 2024

Junior Frontend Developer

- Desarrollo de UI's responsive utilizando HTML, CSS y Javascript y frameworks como React y NextJs.
- Gestión de estados en grandes aplicaciones con React Context.
- Consumo de API's para la integración de datos dentro del Frontend.
- Adaptar paradigmas funcionales a problemas comunes.
- Planificación de proyectos mediante metodologías ágiles.

Habilidades

HTML, CSS, SASS, Bootstrap, JavaScript, Material-UI, NextJs, ReactJs, Git, GitHub

About me

My name is Victor, I'm Frontend Developer, I have +1 experience in the dev area. I consider myself a knowledge lover and eager to keep learning to acquire new knowledge. I worked as a freelancer with a full-stack programmer, using technologies such as **JavaScript, ReactJs, Next.js, CSS, SASS, Material UI and Bootstrap** in the creation of several websites for different clients adapting their needs to create sustainable websites. I am passionate about creating reusable components, structuring code in a clean and tidy way, and following the latest trends in front-end development.
